Long Range Deer Pressed

Product number: 82317

Product Information

SWEETLIX® Long Range Deer Pressed should be self-fed year-round to growing and breeding deer in their natural habitat. SWEETLIX® Long Range Deer Pressed should be positioned in areas frequented by deer, such as trails, rubs and watering spots. SWEETLIX® Long Range Deer Pressed is scientifically balanced to supplement the deer's natural vegetation by providing the protein, minerals, vitamins and energy necessary for optimal growth, antler and bone development, and reproduction.

- A 14% protein, highly fortified pressed block designed to boost the deer's natural forage diet
- Added Alltech® technology for advanced nutrition:
  - Bioplex® organic trace minerals: Reinforces mineral status, which leads to optimal overall health, immune status and reproductive function. Readily absorbed, stored and utilized by the animal and offers higher bioavailability than inorganic minerals.
  - Yea-Sacc® promotes digestion and utilization of nutrients, promoting the growth of fiber digesting bacteria in the rumen. Provides the right nutritional platform needed to sustain higher milk production and maintain body condition and in a more efficient manner.
  - *Aspergillus Oryzae*: Rumen modifier additive for improved gut health and feed efficiency. Helps support the digestive processes and enhances nutrients available to deer relying on fiber digestion.
- Acorn flavoring: Attracts deer in a flavor that has been shown to entice them to consume the product
- Convenient 33 lbs. block is easy to use to provide deer advanced nutrition to support growth and fertility

Feeding Instructions

Consumption of this product will vary according to the deer's body weight and the quality and quantity of available natural vegetation. Intake of this product by growing and breeding deer should be at the rate of 2 to 4 ounces per head per day.

This supplement should only be used for conservation purposes. Read and follow your local and state laws concerning feeding wild game animals.
